UNIVERSITY OF TRADITIONAL MEDICINE

UTMA
UNIVERSITY OF TRADITIONAL
MEDICINE OF ARMENIA

About UTMA

The University of Traditional Medicine was founded in 1991 by Dr. Norik Saribekyan the Rector of UTMA. UTMA is one of the unprecedented and leading educational institutions in the region. For the whole period of its activity, the university administration and the professors consistently have sought to implement the educational process in accordance with international standards. Staff consists of experienced scientists, professors and doctors, whose work has a great reputation and occupies a worthy place in the system of higher education. The Stomatology Department has its specialised clinics available with all modern techniques available for the training and practice of Students in UTMA. The initiative to invest centuries-old traditional medicine research to the development of Modern medicines in the learning process as well as the best service in the field of integrative medicine were highly appreciated during the international conference held in Cyprus in 1998.

UNIVERSITY OF TRADITIONAL MEDICINE

The university is accredited by the Ministry of Education and Science in 2001. (License N0002, State accreditation N 129) , graduates receive a state diploma which is valued Internationally. The students from our University are eligible for various international Scholarships and programs of internship in every countries with required documents and eligible quali cations. We are currently collaborating with various countries such as in Europe and countries like USA, GERMANY, UK, INDIA, DUBAI ETC.

There are students from different countries in the world where we are the of cial and only af liated university to have partners such as UK and Germany in the region with Medical University . The quality is the most important value of our curriculum and method of education for which we have partners selected with international criteria and students admitted and practiced based on International standards.

Student council (SC)

UTMA Student Council is a representative, self-governed and the highestelected body representing social interests of students. It is nonpolitical and non-partisan Organization. UTMA Student Council expresses and defends the interests of students, promotes their educational, scienti c, artistic, physical, moral and spiritual development.

SC has established committees whose task is to work in the following areas: Students' moral development is the goal of the cultural sector, and the SC organizes more events to reach it. The sport sector's responsibility is to organize sports competitions and events periodically. The main goal of the entertainment and recreation sector is to provide the students with entertaining programs. The progress' sector members should try to generate competition in the performance of students and organize "Best Student" awards each semester. The members of external relations' sector should liaise with other universities and organize meetings. SC committees involve both Armenian and foreign students.

Public Transportation

Public transportation in Yerevan is composed mostly of small and large buses, trolley buses, as well as a metro line. All trips cost 150 AMD. Smaller white buses called marshrutkas are the most common form of public transportation and they go to every part of the city.

Student Life Intellimed

IntelliMed Medical Society is a rapidly expanding, student-led medical education ecosystem dedicated to redefining how future doctors are trained in Armenia. It aims to bridge the gap between theoretical knowledge and real-world medical practice by providing evidence-based learning, immersive clinical exposure, and high-impact medical events. IntelliMed places strong emphasis on developing practical skills, clinical confidence, and critical thinking rather than rote memorization. Through its structured programs, workshops, and collaborative initiatives, students gain early exposure to real clinical environments and meaningful medical responsibilities. The society also focuses on leadership development, professional growth, and networking by connecting students directly with experienced physicians, hospitals, and healthcare leaders. By empowering students to take active roles in education, innovation, and community impact, IntelliMed is cultivating a new generation of motivated, skilled, and forward-thinking clinicians prepared to contribute effectively to the future of healthcare.

Student Life

Indian Culture in Armenia

UTMA in active collaboration with Campus International regularly initiates multiple cultural programs, national holidays celebrations for international students taking into consideration their ethnic, cultural and religious backgrounds.
